

May 21, 1975

where the school medical schools ... and they have reached concurrence in this. We have coordinated with Emory Burnett. If this were adopted, he could get it back up this afternoon and the bill would be ... would not jeopardize it in any way. I would ask permission to take this matter up at this time. It's the adoption of specific amendments to 571 and 571A.

PRESIDENT: This would be a change from the order as the Speaker has just initiated it. I shall recognize Senator Burbach for any discussion he might wish on this. No one else will be able to speak to the point.

SPEAKER: Mr. President, members of the Legislature. It does take 25 votes to bring ... return that bill back for a specific amendment. Am I correct in this?

PRESIDENT: Yes that would be correct.

SPEAKER: You see if this body wishes to consider this motion, I would suggest they consider it now. If we're on Final Reading there is no way that that bill could be processed this year. I did concur with Senator DeCamp. If he wanted to bring his bill up, if he could get the 25 votes to do so, he should attempt it before Final Reading. I say this, not in acquiescing in anyway for Final Reading, this is the proper time to discuss this motion. It is not a fit motion if it's after Final Reading because, knowing Emory Burnett's workload, it cannot be discussed there. If it is the will of this body to consider 571 at this time they can indicate by giving the 25 affirmative votes and discuss it before Final Reading.

PRESIDENT: Then the motion, specifically, should be to change the Speaker's order and return 571 and 571A, both bills, to Select File for specific amendment.

SENATOR DeCAMP: Mr. President.

PRESIDENT: It will be separate. I was only checking to make sure both had to come back. Now in order to ... we are going to take this motion at this time. I have some lights on. Do you wish to speak to this motion? If you don't, I wish you'd turn your lights off. Senators Koch, Schmit, Johnson, Cavanaugh. Senator Koch wishes to speak to the motion. Senator Koch.

SENATOR KOCH: Mr. Speaker, would you have the Clerk repeat the motion that we're now attempting to resolve.

CLERK: Motion would probably be to alter the Speaker's order to consider amendments to 571 and 571A.

PRESIDENT: Do you wish to speak to that, Senator Koch?

SENATOR KOCH: I have a motion at the Clerk's desk, but it is not germane to that directly. I think it does deal with the whole problem we're trying to resolve.
